

## **Kamala Harris**

Attorney general of California from 2011-2017 and now a United States Senator.

As president, I will fight for tax fairness for the middle-class. The LIFT Act would give a break to those who work hard each day for themselves and their families. We can't continue to leave the middle-class behind while corporations reap the benefits.

Our oceans are warming. Glaciers are melting. Sea levels are rising. Climate change is real and we must act now. That's why I support the Green New Deal.

Voting rights are under attack across the country. Let's counteract that by strengthening access to the ballot box, expanding early voting, and making Election Day a national holiday.

## **ON EQUALITY**

*Let's ensure everyone can succeed regardless of their family dynamics, their gender, their sexual orientation or their race. Paid family leave. Equal pay for women. No discrimination in the workplace, and access to capital for communities that have been effectively shut out of capital, home loans and wealth for generations.*

**Cory Booker**

**First African-American senator from New Jersey. Former mayor of Newark**

**Cory Booker**  @CoryBooker · Apr 13

Together, we will run at the tough challenges.

Together, we will do the things that other people say are impossible.

Together, we will fulfill our pledge to be a nation of liberty and justice for all.

Together, we will win.

And together, we will rise. [#Cory2020](#)

Strengthening the economy depends on our ability to strengthen American families. This is how we make that happen:

**Elizabeth Warren**  @ewarren · 21h

America's public lands provide us with clean air and water, sustain fish and wildlife, and offer a place for millions to experience the beauty of nature. Right now, they're under attack. Read my new plan to protect them while fighting climate change:

**Elizabeth Warren**  @ewarren · 21h

America's public lands belong to all of us. We should start acting like it. That means expanding access, ending fossil fuel extraction, more renewables, and maintaining and improving public lands. Together, we can protect our public lands for generations to come.
